EDUCATION

Bachelor of Science in Computer Engineering

University of Peradeniya

Expected to graduate in 2028

Current GPA: 3.40/4.0

PROJECTS

PAR Index-Based Dental Assessment System

- Developed a basic system to evaluate dental alignment using the Peer Assessment Rating (PAR) Index
- Analyzed occlusion and alignment parameters to quantify orthodontic treatment needs
- Applied data interpretation and basic computational methods to assess dental irregularities
- Focused on accuracy, consistency, and structured evaluation of dental cases

3D Software Renderer

- Built a basic 3D rendering system in C
- Implemented transformations and simple lighting
- Used custom math functions

Mini Command Line Shell (ARM Assembly)

- Developed a simple shell using ARM assembly
- Implemented basic and custom commands
- Managed memory and registers

OBJECTIVE

Aspiring Computer Engineer aiming to leverage skills in software development and innovative solutions.

EXPERIENCE

Dental Assessment Assistant (PAR Index-Based Analysis) – Volunteer September-2025-Present

- Assisted in evaluating dental alignment using the PAR Index
- Recorded and analyzed dental data for orthodontic assessment
- Ensured accuracy and consistency in evaluations

Thalgaspitiya Education Development Association – Physics Tutor Oct 2025 – Present

- Conduct physics tutoring sessions and provide mentorship
- Guide students in problem-solving and analytical thinking

Pera Science Hall (PSH) – Physics Mentor

Jan 2025 – Present

- Mentor students in understanding physics concepts
- Support academic growth and scientific thinking

UYAH – Undergraduates and Young Graduates Association – Member

Jul 2023 – Present

- Participate in mentorship and leadership initiatives
- Engage in skill-building and community activities

VOLUNTEER EXPERIENCE

Volunteer Tutor

Thalgaspitiya Education Development Association

April 2022 - May 2023

- Assisted students in understanding complex subjects, improving their academic performance.
- Organized study groups to encourage peer learning and collaboration among students.
- Provided mentorship to youth, fostering skills development and confidence.

MESWA – Educational Volunteer – O/L Student Math Seminars

April 2024 - Present

- Conducted seminars to empower O/L students in mathematics
- Provided guidance, tips, and problem-solving strategies
- Encouraged analytical thinking and confidence in math
